Visa to Turkey

User Friendly A-Z Country List and Visa Rules for Turkey:
http://www.mfa.gov.tr/visa-information-for-foreigners.en.mfa

E-Visa (www.evisa.gov.tr) for Students, Faculty, Researchers, Families

International students (exchange, transfer, visiting, full-time international undergraduate or graduate) and their dependents, international faculty, post-doc researchers, fellows, guest lecturers or researchers and their dependents are allowed, by law, to use a touristic e-visa to enter Turkey when they are affiliated with a university if they are eligible. E-visa is easier to obtain, cost effective, saves you time and requires no visa interviews, and since it is a multiple entry tourist visa, it allows you to travel out of Turkey while waiting on your residence permit. Please review specific requirements and visa rules for your country by following the instructions on www.evisa.gov.tr. E-visa applies to many countries around the world. E-visa website will show whether you are eligible to acquire an e-visa online, exempt from visas or can enter Turkey without a passport.

Note: International employees who will engage in non-academic work are not eligible for e-visas.

Not Eligible for E-Visa?

Nationals of certain countries may not be eligible for an e-visa. In this case they must visit the nearest Turkish embassy or consulate to apply for the appropriate visa category (student, dependent, etc.) To look up consulates and apply for consulate visas to Turkey, visit https://www.konsolosluk.gov.tr/. You can also contact us at ico@ku.edu.tr to request further information or visa support documents from the university either as a student, researcher, employee or family member.
REGULAR VISA APPLICATIONS

Locating the Nearest Turkish Embassy or Consulate in Your Home Country

Here is an A-Z country list for Turkish embassies or consulates: [http://www.mfa.gov.tr/turkish-representations.en.mfa](http://www.mfa.gov.tr/turkish-representations.en.mfa)

Visa Information and Application

On this webpage you can find a local Turkish consulate, learn about visas and make a visa application appointment. If the page opens in Turkish by default, please switch to English from the top right corner of the pop-up window: [https://www.konsolosluk.gov.tr/](https://www.konsolosluk.gov.tr/)

Visa for International Non-Academic Staff

When you are hired by KU for an administrative position, we will get in touch with you regarding your visa application and acquisition of your work/residence permit. International non-academic employees are required to visit a Turkish mission in their country of citizenship and obtain a work visa prior to their trip to Turkey, unless they are in Turkey at the time of application on a VALID residence permit for at least 6 months or longer. Individuals with a valid residence permit that is valid for 6 months or longer can apply from within Turkey without leaving the country. This rule does not include students who reside in Turkey on a student status.

About Passport Validity

In accordance with the article 7.1b of “the Law on Foreigners and International Protection” no.6458, foreigners wishing to enter Turkey should carry a travel document (passport) with an expiration
Before Arrival

date at least 60 days beyond the “duration of stay” of their visa, e-Visa, visa exemption, or residence permit.

**Example A:** In order to enter Turkey having a visa with 90 days “duration of stay”, foreigners should hold a travel document valid at least for an additional 60 days which totals to 150 days (90 days + 60 days) of validity at the time of entrance.

**Example B:** In order to enter Turkey having a visa with 30 days “duration of stay”, foreigners should hold a travel document valid at least for an additional 60 days which totals to 90 days (30 days + 60 days) of validity at the time of entrance.”

**Important:** Nationals of some countries can enter Turkey without a passport. They are allowed to use their national ID’s. However, if you will study, work or stay in Turkey for longer than 30 days, you should have a valid passport. Only with a valid passport can you apply for a residence permit regardless of your nationality. In any case we advise everyone to come to Turkey with a passport that is valid for at least one year or more.

**Family Members (Dependents)**
If any of your family members will accompany you to Turkey, they can also apply for a visa together with you. Regardless of your residence status in Turkey, your family members will apply for a short term family residence permit. International Community Office will assist you in this process from the moment you are admitted as a student or hired as a faculty/staff/researcher.

Planning Expenses

Planning your expenses for arrival will be helpful. Some possible immediate expenses are:

- Taxi fares, university fees (students), other transportation, pay as you go or pre-paid cell phone sim cards or minute credits, security deposit for rent that might include 2 months’ rent (if you’ll rent yourself), eating and grocery expenses, possible purchase of necessary home goods, clothing, electric appliances or small devices. Turkish Lira (TRY) is the official currency for Turkey. You can check exchange rates and do conversions via [https://www.google.com/finance/converter](https://www.google.com/finance/converter) or download a mobile currency converter into your phone via visiting [https://www.oanda.com/mobile/](https://www.oanda.com/mobile/). We advise newcomers that they travel to Turkey with US Dollars or Euros as these will be easier and more profitable to exchange for Turkish Lira. Finding offices or banks that convert other currencies will be difficult.

Money Tips Before Your Trip:

**NOTIFY YOUR BANK:** Before you leave for Turkey, notify your bank so that they do not put a hold on your account when they notice transactions at a foreign country and think your card might be stolen

**CHOOSE THE RIGHT CARD FOR FEES:** Most banks and credit cards charge a foreign transaction fee. Research your card’s ATM network in Turkey and how much they charge in fees for transactions and withdrawals so that you can switch to a more convenient card if needed.
AVOID CURRENCY EXCHANGE BOOTHs AT AIRPORTs: Exchange rates will not be in your favor at airports. If you need money upon arriving, we advise that you use your ATM card and withdraw money. You will end up spending less. ATM machines will offer a more up-to-date and fairer exchange rate.

OPEN A BANK ACCOUNT IN TURKEY: Except for a couple banks, all banks will open a bank account for foreigners only with a valid residence permit card and proof of address. Once you have your residence/work permit, open a bank account, so you can have an ATM and Credit card with a local bank and avoid extra fees.

Arrival Date

All international students must arrive at KU one week before semester start date. Faculty, Staff and Researchers can notify ICO about their arrival dates and stay in touch with ICO and their departments about orientation dates and other administrative business before the employment officially begins. Planning early arrival and identifying dates will be helpful for several reasons, especially for international students, such as:

- Resting up from your trip and getting ready for school
- Arranging housing or checking into a previously arranged residence
- Complete university registration and course registrations
- Obtain university ID, meal card, computing credentials
- Finding your college or graduate school, join a guided campus tour
- Attend international orientation sessions and complete immigration check-in
- Complete paperwork for health insurance, residence permit, students’ discount public transit card and graduate assistantships
- Attend Teaching Assistantship trainings/workshops at Office of Learning and Teaching (KOLT)
GRADUATE STUDENTS WITH SCHOLARSHIPS AND ASSISTANTSHIPS

International graduate students must arrive at KU during registration period/week of any given semester. Failure to arrive on time may result in delays with your immigration procedures, stipend payments and health insurance. Contact your graduate school for special orientation or training programs since you might be required to arrive earlier than the registration week. A list of all graduate programs and their contact information can be found here: https://international.ku.edu.tr/graduate-programs/programs-offered/#tab_html_af092eaa274c6ecd74f60eede2220214

Transportation from the Airport
While booking flights to Turkey, we recommend you to fly into Istanbul airport on the European side. This is because you will find better air fare deals to this airport since there are more international flights to this airport and the university is on the same side, European side, of Istanbul making it easier for transportation. Below you can find the step by step public transportation directions to KU from the Istanbul Airport.

Transit Directions from Istanbul Airport (http://www.istairport.com/en)

**Step 1-** Purchase the smart transit card of Istanbul called “Istanbul Kart” from the 24 different Istanbul Kart machines on the lower 2nd floor at the airport (arrival public transportation floor) following the signs, the HAVAIST offices, and the contracted exchange offices at the airport. The plain card costs 6 ₺. Load at least 20-30 ₺ into your card. For all public transit modes, you’ll use the card by tapping it to the readers.

**Step 2-** Choose your option:

**A. Taxi** The approximate taxi fare from Istanbul Airport to KU will be around 135-165 ₺ depending on the route and traffic conditions.

**B. Take the bus H8 to either Acarlar Bus Stop or Hacıosman Bus Terminal** (It costs 5,20 ₺ and takes 100-120 min.). Acarlar bus stop is the earliest and the closest stop on this line to the KU main campus. You can either get off the bus at Acarlar, walk to the taxi station and get a taxi to the campus, or stay on board until Hacıosman terminal. Getting off at Hacıosman means traveling the distance back since all transition means to KU from Hacıosman passes through the same way. From Hacıosman you can either:

I. Take the bus no 154 (recommended). It costs 2.6 ₺ and takes 50 minutes.

II. Cross the street and take a minibus (pay cash to the driver 2.25 ₺) with the KOÇ ÜNİVERSİTESİ sign at the front windshield or side window. The ride takes 1 hour.

III. Take a taxi. The ride costs 40 ₺ and takes 21 minutes.

**C. Airport Shuttle HAVAIST-5 to 4. Levent and connect to M2 Green Metro Line to Hacıosman Station** (It costs 20,6 ₺ and takes 110 min.). Follow the signs and exit through Otobüs Durakları (Bus Terminal). Here, you can use one of the choices.
mentioned in option B.

D. Take the bus H2 to Mecidiyeköy and connect to M2 Green Metro Line to Hacıosman Station (it costs 7.8 ₺ and takes 1 hour). Follow the signs and exit through Otobüs Durakları (Bus Terminal). Here, you can use one of the choices mentioned in option B.

Note: Unless otherwise arranged you must first visit the housing office, that is S building next to the health center. On the bus, you can push the “stop” buttons while approaching the stop called “SAGLIK MERKEZI” for S building. On the minibus or taxi, you must show this stop name written on a piece of paper or from your cell phone to the driver. Most drivers do not speak English.

Taxi Fee Calculator and Route Planner
You can use this taxi fee calculator before riding a taxi in Istanbul and other cities in Turkey; get an estimate on your taxi fare and see route planning alternatives on a map: https://taksiyle.com/en

Checking into Your Residence
Upon arrival to campus you will first be welcomed by security guards at the security gate of the main campus. Please be prepared to present a picture ID (i.e: passport) and a copy of your acceptance, invitation, research or employment offer letter. Be informed, security guards speak little or no English, but they will give you a card with directions so you can proceed to the housing office to complete your check-in procedures. Please co-operate with the security guards as they might need you to fill out a guest form and check your ID in until you leave the campus.

Check-in and dorm/apartment key acquisitions for all students and non-student residents must be made on main campus Housing Office located in S Building. Graduate
students must also visit the main campus housing office to select their apartments from a draw (lottery style), sign their housing contracts and retrieve their apartment keys. Housing office personnel will assist graduate students to call a taxi to take them to their off-campus apartment complex located within 5 minutes from main campus. Undergraduate international students will be shown their rooms and will be able to check in on the premises right away.

Orientation
All incoming international faculty, staff and students go through a welcome orientation by their respective departments at KU. The ICO offers a separate orientation for all newcomer internationals. As a new member of KU community please check your emails frequently for orientation and other important information. For specific time or other arrangements please email ico@ku.edu.tr.

Accessibility (disability services)
Please contact the disability services office for accessibility requests prior to your arrival at nkarahalil@ku.edu.tr. If you are a new employee with a disability at KU, please email ico@ku.edu.tr to request assistance. Disability Services Office is located at Student Center lower 3rd Fl. Office B391.

Immigration Procedures
Depending on your status at KU, you will be guided to follow the appropriate procedure for your and your dependents’ (if any) visa and residency applications. There is extensive information available on our website for these procedures (www.ico.ku.edu.tr). We do remain in constant touch with you before and after your arrival to Turkey. You can reach International Community Office staff via email at ico@ku.edu.tr for your immigration related questions at anytime.

Tax Id
Obtaining a tax id might be helpful for students, visiting faculty, researchers or family members since their residence permit will not be readily available when they arrive and some administrative procedures require an official ID number. Obtaining a tax id number is easy and free of charge at local tax offices. International Community Office provides directions and a message written in Turkish to the tax office staff for language issues upon request. A tax id will allow you to open a bank account with some banks, obtain a health insurance and perform various formalities in Turkey. Once you have a residence permit you do not have to use your tax id. Tax id application can only be made with your valid passport.
Living
Residence Life

Main Campus and West Campus

KU has numerous facilities and campuses comprising hospitals, libraries, museums, research centers across Turkey. This guide is meant particularly for members of the Main and West Campus area. For a complete list of KU centers, you may visit https://www.ku.edu.tr/en/research/research-centers

Main Campus

The Main campus is the central and the largest location for academics, administration and the campus life of the university; including a variety of shops, eateries, recreational indoor and outdoor spaces, and service providers. This location “hub” allows for students and faculties to go about their general errands with ease and convenience. Undergraduate student dorms and faculty housing are also located on the Main Campus. Part of undergraduate student dorms and faculty housing are also located on the West Campus.

West Campus

West Campus consists mostly of undergraduate student dorms, but it is also home to the university’s indoor swimming pool, West Campus mini gym, 24/7 health center, mini conference hall, study and computer rooms and cafeterias as well.

KU Grad Student and Scholars Housing

KU offers shared housing to graduate students and post-doc researchers within apartment complexes located near West Campus. Faculty members and their families are assigned private apartments. Free shuttle transportation to and from Main Campus is available to KU members and West Campus is within walking distance to these residences. For all your housing related questions or concerns, please email housing@ku.edu.tr. For your technical work requests please submit a form via https://h-trackit.ku.edu.tr/.
Power Energy

Turkey has a 230V power system and uses C or F type plugs that are compatible with most electrical items worldwide. Items brought from certain countries will need adaptors which are conveniently available in Turkey or can be purchased before traveling to Turkey. Electric appliances purchased in Turkey would not need adaptors.

Drinking Water

In Istanbul, tap water can be used for any purpose but drinking. Drinking water is bottled water that can be purchased from supermarkets, grocery stores in various sizes or can be ordered by phone or online from demijohn water companies. Fountain water is also drinkable wherever available.

Ordering Water

In Turkey people order bottled water where drinking tap water is not advisable. This can be done either by calling the water companies or via some mobile apps or online from a computer. Below, you can find a link to a sample order form that belongs to a company. Online ordering websites are very limited in English language. For first time orders the companies might charge a deposit fee and a water pump must be purchased. These are sold at grocery stores and water companies for around 5TL.

Avg. price for a 19lt demijohn (damacana in Turkish) bottled water: 9-15 TL
To order online: http://www.sakasu.com.tr/en/online-order/want-to-be-subscribes
Mobile App to order from your smartphone from multiple companies: http://bisu.com.tr/

Tip: You can always ask a roommate or neighbor for help when ordering your first bottle and the rest will be very easy.
Utilities

If, due to your living situation, you have to pay for the utilities yourself, there are a few ways to do this. First, please be advised that in Turkey you are never asked to pay someone cash who comes to your door and claims him/herself to be a utility agent rep. or the like. If this happens, report it to the police because it is a fraud. You can pay at authorized utility payment offices, banks, via internet banking and automatic payment via your bank. You can set up automatic payment with your bills at the bank in person or on your bank’s website or mobile app.

Computing

User Name and Password: Each individual affiliated with KU is assigned a unique username and password that are used for all websites or online systems that require a log-in, i.e: email, track-it technical requests service, HR portal, KU mobile apps, KU Gmail, shared networks, webmail, VPN, etc. You can change your password anytime via https://home.ku.edu.tr/password/

To learn how to connect to the wi-fi on campus, visit https://it.ku.edu.tr/how-to/connect-to-ku-wireless/ku-faculty-staff-and-student/. Please select your status as a guest or faculty/staff/student from the menu on the left.

Internet Connection at Dorms, Faculty and Off-Campus Housing: All dorms and KU affiliated housing feature high speed unlimited internet. Network credentials are shared with KU members upon check-in.

Access to Shared Folders: There are various network drives such as F drive, H drive. You must log on via Novell with your user credentials to access shared folders. These folders are visible to only KU members. You can email it@ku.edu.tr if you experience any difficulty while logging on or accessing any specific folder.
**IT Services:** IT department (www.it.ku.edu.tr) handles the entire computing and network related matters at KU. It’s the computing related HELP DESK for everyone. On IT’s website you can find very useful information about printers, computers, wireless, VPN connection, internet security etc. For any technical questions or issues or service requests you should email it@ku.edu.tr or call x1111 from campus phones, 0212 338 1111 from mobile or exterior phones. E-mailing will warrant the quickest solution to your request as it will generate a trackable work order automatically and an IT user assistant will attend to your request within 24 hours.

**My.KU:** [www.my.ku.edu.tr](http://www.my.ku.edu.tr) is a user friendly website offered and managed by IT department and exclusive to KU members. Using www.my.ku.edu.tr you can access your KU gmail account, and google drive, connect to the nearest printer on the network, look up colleagues or people and find the most up to date news and announcements of departments and computing services. For any questions about this website you can email it@ku.edu.tr.

**Telephones, Making Calls and Foreign Mobile Devices**

There are fixed phones in dorm rooms, graduate apartments, faculty houses and faculty/staff offices. Phones are managed by IT department at KU. All inquiries regarding phones must be directed to it@ku.edu.tr

**Land Lines:** In Turkey each city has an area code that consists of 3 digits and the local phone numbers consist of 7 digits. Istanbul, exceptionally, has two area codes, one for Asian side (216) and one for the European side (212). If you are making a phone call from a landline from a location within that area code you do not need to dial the area code. When calling from a cell phone you always need to dial the area code. Whenever the area code is needed a “0” prefix must be added before the area code.

* e.g.: A local landline number on the European district of Istanbul: 346 7456. To call from a cell phone or any other location where another area code is used, you must dial: 0212 346 7456.

**Mobile Operators:** There are three major mobile operators in Turkey: Turkcell, Vodafone, Turk Telekom. Each operator is assigned a mobile prefix like
an area code and it is also a 3 digit code. From mobile to mobile and landline to mobile calls, the area codes with a “0” in the beginning must be dialed. Sometimes the incoming calls on your cell phone might appear with the default country code +90. This does not affect anything. While saving a cell phone number you can leave or remove this prefix.

**International Calls:** To call a phone in another country from any phone in Turkey, you must dial Turkey’s international access prefix 00 + Country Code + Area Code + Local Phone Number. To call Turkey from abroad you must do the same except that the international access prefix for each country would be different: International Access Prefix + 90 (Turkey Country Code) + Area Code + Local Number. For instance, if you were to call Koc University from abroad you would dial 00 90 212 338 1000. Aside from various internet and mobile tools to make free or low fee international calls, calling cards available at newsstands in Turkey are other convenient options.

**Registering Mobile Phones**

According to the regulations set forth by Information and Communication Technologies Authority of Turkey (ICTA), each individual, regardless of nationality, coming into Turkey with a phone or other mobile devices with call features must register their device within 120 days of arrival. The registration per person/per passport is limited to one device every three years. Devices not registered within 120 days will be blocked and unable to make or accept calls. Other features of the device can still be used without registration, including emergency calls. Visitors, foreign residents or students staying in Turkey for longer than 120 days must register their devices following the instructions below; for your convenience we have made a tutorial “how to” video thanks to which you can register your device within minutes online:

**Remember:** Temporary visitors, one semester exchange students, faculty or interns, summer school students and the like DO NOT NEED to register their devices if they are staying in Turkey for less than 120 days. Below instructions and our tutorial video are available for individuals with a valid Turkish residence permit or work permit in Turkey to help them avoid paying extra fees to mobile operator branches to register their phones. You can follow the instructions below and register your phone by only paying the respective official
fee (1500 TL for 2019) for phone registration. The dealers will charge varying service fees in addition to registration fee that is paid at the bank or tax office. Therefore, we advise not to rush and wait to obtain your residence permit and register within 120 days.

**Registering Your Foreign Mobile Phone in Turkey in 3 Easy Steps**

1- Pay the phone registration fee at Ziraat Bank with your Residence Permit and your phone's IMEI number. You can retrieve your IMEI number by dialing *#06# on your phone.

2- Visit any PTT branch (post office) with your active Turkish cell phone, passport and residence permit card and purchase your e-Devlet (e-Government) pin code. Please note, the pin code must be registered with your Foreign ID number that appears on your residence/work permit card and begins with 99. Sariyer PTT is the closest one to KU

**Cell Phones in Turkey:** Prepaid/Pay As You Go, Monthly Plans w/out Contracts

There are three major operators which carry both prepaid and monthly plans for mobile phones in Turkey. Those are:

- **Turkcell** (http://www.turkcell.com.tr/english-support)
- **Vodafone** (http://www.vodafone.com.tr/)

In order to make the best choice we suggest you to visit their authorized dealer stores (they all have branches in Sariyer) and review the latest offerings for yourself. All plans can be viewed on their website as well. You can call the customer services of the operators and receive assistance in English. It will help a lot to visit the stores with
a Turkish speaking friend unless you know Turkish. You can email ico@ku.edu.tr if you need assistance.

**Transportation**

Istanbul has one of the best public transportation networks in the world. There are several options to reach any location for 24 hours, and Taxi is a convenient option compared to large metropolitans in the world and other cities in Turkey. Below is a list of main transportation categories specifically for KU community. The list contains bus numbers or metro stations and brief descriptions so as to offer you important keywords to remember in your daily commute or occasional transportation. IETT buses are operated by Istanbul Metropolitan Municipality and they require refill transit cards (Istanbul Kart) described in airport transportation section. Students and Faculty are eligible for discount transit passes which will be described in more detail after arrival to Turkey and acquiring a residence permit:

- **IETT Bus 154:** Enters Koc University main campus, route via Haci Osman Metro, Sariyer, West Campus

- **IETT Bus 150:** Passes by Koc University main campus security gate, requires transfer to reach onto campus, route via Haci Osman Metro, Sariyer, West Campus

- **IETT Bus 40:** Enters Koc University late night AM only, route via Taksim Gumussuyu Peron, Besiktas (Bosphorus waterfront), Ortakoy all the way up to Koc University

- **Koc Uni. Dolmus:** Enters Koc University, route same as 154, cash only

- **Paid Express Shuttle:** Paid Koc University express shuttle (ASSEL) service available to major locations across Istanbul, special refill money card obtained from main campus office. For more information, please check out our website: [https://ico.ku.edu.tr/resources/transportation/](https://ico.ku.edu.tr/resources/transportation/)

Driving in Turkey

Driver’s License

Short term visitors with a driver’s license in another country do not need a new driver’s license in Turkey for up to 6 months. Residents staying longer than 6 months must apply to switch their license to a Turkish driver’s license if there is a bilateral agreement between countries. Those who would like to obtain a driver’s license for the first time, can do so in Turkey once they have a residence permit. Please contact the International Community Office at ico@ku.edu.tr to receive further assistance.

Money, Shopping & Banking

Shopping
Since Istanbul is a densely populated city, each town district has its own shops, stores, eateries, schools, hospitals etc. This is to say you do not have to travel far for your needs. University main campus has a grocery store where you can find most of your needs. Also, downtown Sariyer or main street has all kinds of shops for any of your needs. Below you can find information about spending and some shopping tips:

The website http://www.sariyerrehberi.net/ is a good resource for you to browse stores and businesses by category. The site is in Turkish but with little knowledge of Turkish you can access directions and contact information of various local businesses. Most businesses also deliver your orders.

Weekly Fruits and Vegetables Market Place (Pazar)
Like in some other countries, in Turkey there is also the traditional community market place which is called “Pazar” (same word for Sunday, the day of the week but not related words). Every day Pazar moves to some other street for the convenience of the residents of a respective district. Sariyer local pazar is every Wednesday (thus Çarşamba (wed.) Pazari). People still prefer shopping from the pazar since the most fresh produce for reasonable prices can be found here. Most items are priced on kilo basis. Bargaining is welcome at pazar’s. Some sellers will allow you to feel and pick the goods yourself whereas some others won’t. Ask a local where and when your local pazar is, depending on your location in Istanbul.

Town of Sariyer
We are located here in town of Sariyer. Sariyer municipality theatre, dance, music and art events run year round. To learn more about your community, keep up with what is going on visit Sariyer Municipality website at http://www.sariyer.bel.tr
This site is in Turkish but with little knowledge of Turkish, you can follow up on what events are organized in the town.

**Shopping Malls:**

Modern shopping malls are everywhere in Istanbul and some of them are highly popular among tourists. They are also known as AVM’s from the Turkish acronym for “shopping center: alış-veriş merkezi”. One of the largest shopping malls is in Sariyer located in Istinye. The name of the mall is Istinye Park, and is located at Pinar Mh., 34460 Sariyer/Istanbul. Visit its website for more information about shops, events and restaurants: [http://www.istinyepark.com/en](http://www.istinyepark.com/en).

**Koc Ailem**

Faculty and Staff receive a special advantage card that is called Koc Ailem (My Koc Family). This card provides special discounts to KU employees at all Koc Companies and extra advantages at museums, events and other brands. Koc Ailem membership, card delivery, activation and family membership questions can be directed to Human Resources office. Visit [http://www.kocailem.com](http://www.kocailem.com) to stay up to date about the latest advantages of Koc Ailem card.
Turkish Currency - Lira

Turkish Lira (Türk Lirası, TL or TRY) is the official currency for Turkey. ₺ is the symbol used for Turkish Lira. Banknotes are in denominations of TL up to 200 liras. Coins are in denominations of 1, 5, 10, 25, 50, 1TL

See in the image below TL banknotes and coins actively in use now:
Bank Account

Most banks in Turkey will require foreigners to possess a residence permit and proof of address in Turkey to open a bank account. Some banks may open a bank account with a passport only and certain banks will ask for a Tax ID. If you are visiting KU temporarily and have questions about banking, you may contact us at ico@ku.edu.tr. Employees and scholarship students at KU will be asked to open a bank account with Yapi Kredi Bank on campus, since it is a Koc group company whereby affiliates of KU are exempt from dues, and surcharges and are offered many other conveniences like no fees for non Yapi Kredi ATM’s, free credit cards, no fees on direct deposits for your stipend or salary, no fees on money transfers. Yapi Kredi Bank will only open your bank account with your residence/work permit and address declaration letter to be obtained from Human Resources office payroll unit for faculty/staff and from the housing office (S building) for graduate students who are on scholarship and receiving stipends.

ATM’s

ATM’s are conveniently available wherever you go in Istanbul and Turkey. Like any ATM around the world, you can select language and complete your transactions easily. At KU, there are ATM’s on main campus at Student Center -1st floor, Dormitory S building and West Campus. Each bank in Turkey has their mobile apps and internet banking websites. Internet banking is widely popular in Turkey as all banking processes can be done online. As such, bank websites or mobile apps will also help you locate the closest ATM of your bank. In some countries passwords (pin) for an ATM card can include letters, but in Turkey it is only a 4 digit number. If this is the case for you and you must withdraw money from your bank account back home, you can either update your pin before coming to Turkey or translate letters into numbers by looking at the keypad.
Living

The language on the keys is most often Turkish but color codes will help. Here is the translation: Sil = Delete (Yellow) İptal = Cancel (Red) Giriş = Enter/Return (Green)

It is best to have a local bank account in Turkey after obtaining a residence permit. With a local bank account you will avoid transaction fees and surcharges.

**MONEY RELATED TIPS:**

**Tip:** Turkish currency is Turkish Lira (Turk Lirasi - TRY). Refer to the images above to recognize Turkish banknotes and coins in use.

**Tip:** Counterfeit money is rarely seen but you should not accept large quantity banknotes from anyone except when it is from a bank or official office (i.e: tax office, immigration office)

**Tip:** Exchanging Dollars or Euros is much easier compared to any other currency, thus come to Turkey with those currencies. Finding Turkish lira outside Turkey will be difficult and costly for you. It is unnecessary.

**Tip:** Avoid exchanging currency at banks or exchange offices at an airport in Turkey. The exchange rates will not be in your favor and there will be higher commission fees.

**Tip:** Prefer currency exchange offices in your local neighborhood or touristic spots as you will get better exchange rates and little or no commission fees.

**Tip:** Keep receipts of certain purchases and transactions as you would normally do at home. Customer rights work very well in Turkey.

**Tip:** Credit cards can be used for almost any purchase in Turkey. Most credit cards are accepted (VISA, MASTERCARD, AMERICAN EXPRESS) but be warned that you might be asked to provide a PIN for your credit card (signature in some other countries). Confirm with the merchants before making a purchase as some places still accept signatures.

**Tip:** If you are making an online booking for a flight, car rental or travel in advance be sure to read through related terms and conditions and customer rights & responsibilities. Some businesses will not allow you to use the purchased item if you do not present the same credit card that was used in the online transaction. This is a security measure against fraud.
Tipping

Tipping is not a must in Turkey but it somewhat started to become so at restaurants in metropolitan cities (larger cities). It usually depends on how satisfied you are with the service offered and who you are served or assisted by. Tipping might not be welcome in certain situations. For example, you should not tip any employee that works at the university except for leaving tips in the tip boxes of certain coffee shops or cafeterias. Here is a small Q&A on typical tipping practices in Turkey/Istanbul. For more tipping info you can visit http://www.turkeytravelpanner.com/details/Money/Tipping.html

Istanbul is a safe city; as safe as Europe or elsewhere that is considered safe. Political context, circumstances at a given time can alter this statement but here in this guide we would like to inform you about general safety rules and provide important safety & security cautions for a large city like Istanbul. Some common crimes are pickpocketing, bag snatching and bag slashing. Robbery by force and rape are rarely seen but can happen. How you should protect yourself and take precaution:

- To defend yourself against pickpocketing and robbery, do not carry large amounts of cash in your pockets. If you’re wearing a bag, keep it in front of you so you can watch it. For bags with a shoulder strap, wear them across your torso and hold the strap firmly.

- If you recognize the thief raise your voice and yell to point to the thief so other people and especially security guards or police can pursue the thief. Do not try to fight the thief or pursue him/her, they can be dangerous.

- Avoid being alone.

- Turkish people are very friendly but you should use caution to trust strangers as some strangers might try to trick you (shop keepers, hotel keepers, taxi drivers, people on public transit, restaurant keepers)

- Embassies and consulates share important security advisories on their websites. Subscribe to their email lists and register with your country’s foreign mission in Turkey when you arrive Turkey.

- Always carry proper identification such as your residence permit, copy of your passport (it’s not advisable to have the original in case it gets misplaced or stolen), university ID card.

- Try to stay aware of your surroundings and suspicious situations.

- Do not walk late at night in an unfamiliar neighborhood if you are alone, Prefer using a taxi.
- Use caution if you are being offered uninvited companion, help, food or drink by a stranger while traveling alone or in another situation
- Call 24/7 available Koc University international emergency line 0549 790 8340 in case of emergency
- Call 155 for Police

Important information about Ramazan:
Dates for this holiday are calculated by the Islamic Lunar Calendar, and move forward by 11 days every year.
For 30 days a morning drummer will play a loud drum (davul) to wake people up so those who’ll fast that day can eat something until the morning prayer. People living in certain areas of the city will notice a morning drummer who beats a loud drum (davul) while walking through the neighborhood before dawn. This tradition is meant to wake people up to break their fast before sunrise. This practice will continue throughout the 30 day period.

Ezan (Call to prayer): Ezan is chanted 6 times a day from mosques. It is heard from almost anywhere in the city. It is to summon the faithful to prayer. The times vary by location and the time of sunrise everyday. You can visit http://diyanet.gov.tr/en/home to learn the exact time of prayer on a certain date.

FIRE STATION

Koc University has a Fire Station on campus that works on 24/7 basis. Besides their preventive precautions strategy, Fire Department works with Occupational Safety office to educate students and non-students about fire hazards. Undergraduate and graduate students that are working in faculty laboratories receive trainings about “Fire Precautions in Laboratory”. In these trainings usage of portative fire extinguish tubes are shown. “Laboratory entrance cards” are not given to those who did not participate in these trainings.

DISABLED RESIDENTS LIST IN CASE OF EMERGENCY

In case of fire and natural disasters, there is “disabled resident list” in our fire extinguish vehicles to rescue disabled students from the disaster zone urgently. Updated list of disabled students resident at dormitory is always kept in our fire extinguish vehicles. Koc University is protected against the fires at the level of international standards.

EARTHQUAKES

There are 2 earthquake containers in our campus. Rescue materials in containers are controlled periodically. If there is any material (medicine, drinking water, batteries, etc.) expired, then these materials are replaced periodically.

SETCARD
SETCARD is a pre-filed meal card provided by the university for personnel and some graduate students. Every month users will receive a set balance of money for food which they can spend as they please. SETCARDS can be used at all campus food vendors, small food shops, as well as restaurants and some grocery stores around the city. A business that accepts SETCARDS would have a sticker or decal displayed on the window or door of the shop. You can also show your card and ask if you can use it for payment. Each month, the SETCARD can either be refilled on campus or at a shop/restaurant that accepts the card. If you lose your SETCARD, please inform Human Resources office immediately to have your card blocked. Someone who has your card can spend your balance.
